Locker Vending Machine

*Suitable for vending large products
A companion for a Sorrento WVC vending machine*

The Sorrento series of vending machines offers a versatile solution for vending applications.

This locker system provides a simple and cost-effective way to self-serve larger products that would not be able to be successfully vended from a traditional vending machine. It is connected to a companion Sorrento WVC vending machine that provides the payment and control system for the locker.

Features

- ❖ Up to four locker cabinets can be connected to a single companion vending machine.
- ❖ Tough Perspex viewing window for a great display of all vending products.
- ❖ Improved merchandising with a separate brilliant LED lighting strip for each individual locker.
- ❖ Mounting brackets connecting to the companion vending machine for stability.
- ❖ Single product serve for each locker.
- ❖ All the great payment and control features of the Sorrento series vending machine via the master/slave arrangement with the companion vendor.
